

Church Family,

*Ps 107:1-2 "O give thanks unto the Lord, for he is good: for his mercy endureth forever. 2 Let the redeemed of the Lord say so, whom he hath redeemed from the hand of the enemy;" [KJV]*

Let the redeemed say, they are redeemed! Let them say that the Lord is good and HIS mercies are forever!!!! Let them say it!

So today I say it...GOD IS GOOD: HIS MERCIES have endured and will endure over us forever!

Praying that you have had a wonderful week.

We live in a time that is void of great leadership among many of those we have voted for. Yet in the middle of all this craziness I see leadership at Sunset Avenue. I see it in Staff & Volunteers...I see it in our homes...I see parents doing what is necessary to raise their children in this season...I see it in those who are Business Owners, just marching forward... I see it among our Medical Personnel... I see it among our local Law Enforcement that do the right things the right way... I see it among our Educators who haven't been given much direction but are working overtime to provide direction for their students...I see it in our youth and children as they adjust to life and grow in grace...I see compassion...grace...YES I SEE LEADERSHIP and am grateful to be in a place filled with leaders.

Again, this week we remind you to keep leading your household. COVID still lurks in our community. The great news is that the majority that are affected are sent home to recover and all seem to be recovering well. SO, I say so...GOD'S MERCIES!

We will open our doors again this Sunday with the same directions that we always give. The risk of going to church has not

changed. You know this risk and you must be wise in how you approach. There is no right and wrong here. Make your decision based on your health and the needs of your family. We will also be broadcasting via FaceBook at 11am.

We do not open our doors with arrogance or pride. We do so, feeling that the Church has a responsibility to the community. We have a major role in the well-being of our community and we will not give up that role.

Many have asked will I ever shut down again? My intent is to remain open. However, like some of our brothers & sisters in the community that have had to change strategies for a few weeks because they have a significant number sick in their fellowship, that would cause us to be cautious just like they have had to be. But know as long as we remain healthy, we will continue to have in-house worship.

Again, this week, we remind you to be diligent. If you are not feeling well then for your sake, the sake of your family and church family, stay home and make sure all is well. We are all responsible for doing the right thing. If sickness knocks on your door, walk in faith and in wisdom. Our times are in God's hands!

Thanks for your faithfulness to truth and wisdom!

Blessings,  
Pastor
